## Background

This workshop is part of the activities in the HIDE research project: Homeland Security, Biometrics identification & Personal Detection Ethics. HIDE is a research collaboration between 11 partners from Europe, Singapore and USA. The project is funded by the European Commission, under the seventh Framework programme, and is coordinated by Prof. Emilio Mordini, Centre for Science, Society and Citizenship (CSSC), Rome Italy  
For more information see: [www.hideproject.eu](http://www.hideproject.eu)

## About the Workshop

The aim of the workshop is to establish a forum for an international dialogue between EU, USA and the APEC countries, in order to identify and discuss some of the ethical and legal issues rising from the use of biometrics for personal detection and surveillance as well as for privacy enhancing purposes. In particular the workshop seeks to address challenges regarding international data sharing and privacy protection within the context of the existing legal frameworks on privacy and data protection.

## Programme

### **Day 1 : 2 July 2009, 8.30am – 5.30pm**

#### **Key Topics:**

1. International data sharing

*Sharing of personal data and the challenges in existing international regulations*

2. Privacy vis-à-vis security

*Perceptions of privacy, security and surveillance in relation to privacy enhancing technologies and personal detection technologies*

### **Day 2 – 3 July 2009, 9am -1pm**

#### **Key Topics:**

1. Is there a right to have an identity?

*Perceptions of identity in relation to the dual use potential of biometrics and personal detection technologies.*

2. Personal data and the human body: rights and ethics (concluding session)

*Round table discussion on differences in values of privacy and personal data related to the body*

## Registration
